

# AG-970

## Electric grid insect light trap

The **AG-970** Insect Electrocutor provides superior flying insect control for large indoor industrial and commercial buildings. The durable aluminum construction works well as a wall or recessed wall mount light trap. The vertical position of the AG-970, installed 1'-2' above the floor, positions the 48" UV Insect Lights to attract flying insects where they are most active.

### **AG - 970 Features:**
