

FlyWeb

Wall Outlet Insect Light Trap

The **FlyWeb** insect light is designed for use indoors in residential and commercial areas. Its compact size and direct plug-in features allow the light to be placed in any outlet. The FlyWeb insect light uses an insect attracting lamp to lure insects to the adhesive trapping board. When the glueboard is full of insects, simply remove, discard and replace with a new adhesive trapping board.

The FlyWeb insect light will lure and capture flies, mosquitoes and other flying insects.
